

Kavya Shetty

Applied AI Engineer | LLMs · RAG · AI Agents · Evaluation

New York, NY · kavyashetty551@gmail.com · linkedin.com/in/kavyashetty3/ · kavya551-svg.github.io/kavyashetty

SUMMARY

Applied AI Engineer building production LLM applications for financial services: RAG pipelines, AI agent workflows, and evaluation systems taken from prototype to production. Owns AI systems end to end, from data ingestion and retrieval to evaluation, deployment, and monitoring, with a focus on accuracy, reliability, and cost.

EXPERIENCE

Applied AI Engineer

Sep 2024 – Present

Principal Financial Group · New York, NY

- Built an enterprise RAG platform over **50,000+** financial documents using Pinecone, LangChain, and hybrid search, used by **500+** internal business users and cutting analyst research time by **45%**.
- Owned the retrieval system end to end: ingestion, chunking, embeddings, retrieval layer, and source-traced answers.
- Designed multi-step AI agent workflows with function calling and tool use to automate manual knowledge-retrieval, summarization, and drafting tasks.
- Built evaluation pipelines measuring accuracy and groundedness on financial-domain content to reduce hallucinations before answers reached users.
- Deployed AI microservices with FastAPI on AWS (Lambda, API Gateway, S3, Bedrock) and monitored reliability and latency.
- Partnered with engineering, product, and compliance teams to scope and ship AI features safely.

AI Engineer

Feb 2022 – Aug 2023

Tata Consultancy Services

- Built Python data pipelines and semantic search components for AI/ML applications on financial data.
- Developed and deployed machine learning models in Python.

AI/ML Engineer

Palnies Technologies

- Developed machine learning models and data pipelines in Python.

SKILLS

LLM & Agents: RAG, AI Agents, Function Calling, MCP, Prompt Engineering, LLM Evaluation

Models & Frameworks: Anthropic Claude API, OpenAI API, AWS Bedrock, LangChain, LlamaIndex, PyTorch

Retrieval: Pinecone, Embeddings, Semantic & Hybrid Search

Engineering: Python, FastAPI, REST APIs, SQL, Machine Learning, Data Pipelines

Cloud & Tools: AWS (Lambda, ECS, S3, API Gateway), Docker, Claude Code, Cursor, Codex

EDUCATION

MS, Computer Information Systems — New England College

2025
